Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Williams (US 4,035,921). Williams discloses the claimed invention, an apparatus for measuring oil level in a fuel tank or oil reservoir comprising an indicator rod [14,34,20] having a dipstick [14] at a first end and a stopper [20] at a second end; a tube [S] having a first end connected to the fuel tank or reservoir and a second end having a flange (rim, Figure 2) and an opening to receive the indicator rod (Figure 2); a locking mechanism [18] coupled to stopper and releasably engaging the flange of the tube (column 4, lines 48-56); and a seal [16] between stopper and tube which deforms to form a seal face (Figure 2). The locking mechanism is actuated by a lever (key 58) operable by a user's finger and a second portion having a locking surface [24] which selectively engages the flange (column 4, lines 48-56; Figure 2), and is coupled to the stopper by a connection operable to allow biased rotation of the locking mechanism (columns 3 and 4). The dipstick assembly may be wholly and

manually removed from the tube [S] and thus comprises a handle having one end received in the tube opening and another end adapted for manipulation by a user.

Response to Arguments

2. Applicant's arguments filed 14 April 2003 have been fully considered but they are not persuasive. Applicant argues that the applied reference discloses a rim which is not a flange as claimed. However, a *flange* is defined in Merriam-Webster's Collegiate Dictionary, 10th Edition as a "rim for strength, for guiding, or for attachment to another object". Figure 2 of Williams clearly shows the tube [S] having a rim edge for attachment to parts 16 and 24. Note further that a *rim* is defined in Merriam-Webster's Collegiate Dictionary, 10th Edition as "the outer often curved or circular edge or border of something".

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
4. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-**

Art Unit: 2855

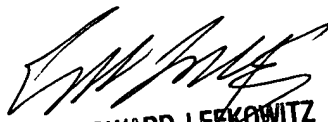

MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
